# Sameday Air – US Domestic Network including pick-up & delivery

Do you have urgent spare parts, production equipment, medical samples, important documents or other time-critical shipments, which have to be delivered within the US quickly and reliably? By extending our highly efficient, global Sameday Air network in the U.S. your shipments up to 90kg/200lbs will be transported with the fastest handling and transit times and highest loading priority. Also from door-to-door. Your goods can be easily booked and tracked via time:matters online.

- ● Airports up to 200 lbs / 90kg
- ○ Airports up to 100 lbs / 45kg

## Your benefits:

**Network:** Comprehensive network of 100 stations within the US to all major economic centers.

**Speed:** Shortest handling times. Late acceptance prior to departure, early availability after arrival, fast transit times from 45 minutes.

**Flexibility:** More than 50.000 flights per week. Individual pick-up and delivery upon request.

**Reliability:** Higher loading priority than express freight. No consolidation and no mix loading with other cargo. Transparent online shipment tracking in real time, proactive status information.

**Pricing:** Standardized pricing for all shipments up to 90kg/200lbs. The calculation is based on chargeable weight. Cost-effective alternative to On Board Courier transport (OBC).

**Fast quote:** Shipments can be booked online. The order confirmation is sent shortly after booking.

**Availability:** Experienced multilingual logistics experts available 24/7.
